SUMMARY

Full-stack developer and BCA student specializing in **MERN Stack** and **Python**. Experienced in building secure, database-driven web applications with REST APIs and JWT-based authentication. Currently working as a Software Developer Intern, contributing to real-world production systems.

SKILLS

Programming:

Python, JavaScript

Frontend:

React.js, Next.js, Tailwind CSS

Backend:

Node.js, Express.js

Databases:

MongoDB, MySQL

Tools:

Git, GitHub, REST APIs, VS Code

EDUCATION

Bachelor of Computer Application (BCA)

2023 – Present

Dharmsinh Desai University, Nadiad (Gujarat)

Higher Secondary Certificate (HSC)

2022 – 2023

St. Anne's High School, Nadiad (Gujarat)

Secondary School Certificate (SSC)

2020 – 2021

St. Anne's High School, Nadiad (Gujarat)

EXPERIENCE

Software Developer Intern

Dec 2025 – Present

Haronex Technology, Anand

- Developing frontend features using **React.js** and **Tailwind CSS**.
- Building and integrating REST APIs using **Node.js** and **Express.js**.
- Implementing authentication and role-based access using **JWT**.
- Collaborating in an agile team environment and resolving real-world production bugs.

PROJECTS

Banking Management System

Jan 2025 – May 2025

- Developed a banking management system using **Python** and **MySQL** for secure data storage and retrieval.
- Implemented CRUD operations with validation logic to maintain accurate account and balance records.
- Ensured modular code structure and strong database integration for scalability and maintainability.

Exam Quiz System (MERN Stack)

Sep 2025 – Oct 2025

- Built a full-stack web application using **MongoDB**, **Express.js**, **React.js**, and **Node.js** for conducting online quizzes.
- Integrated JWT-based authentication and role-based access for secure admin and student operations.
- Created an intuitive admin panel for quiz management and automatic result evaluation.
- Designed a responsive UI using React and Tailwind CSS for better cross-device experience.
- Focused on modular REST API design and real-time score computation for improved efficiency.

CERTIFICATES

- **Technology Job Simulation** – Deloitte (2025)
- **Certification of Completion** - Apna College(2025)
